How to Configure the Footer Newsletter

Footer · https://gloriathemes.com/docs/benson/footer/how-to-configure-the-footer-newsletter/

You can manage the Footer Newsletter settings from:

Appearance → Customize → Footer → Newsletter

Newsletter Settings

- **Title** – The heading displayed in the newsletter section.
- **Text** – Description or supporting text for the newsletter.
- **Shortcode** – Paste the newsletter form shortcode generated by your form or email marketing plugin (e.g. `[mc4wp_form id="123"]`, `[contact-form-7 id="123"]`).

The form will be displayed in the footer newsletter area after adding the shortcode.

Footer Section Order

To control where the newsletter appears in the footer, go to:

Appearance → Customize → Footer → Footer General

Inside the **Footer Sections** area, you can reorder different footer blocks such as:

- Newsletter
- Contact
- Icon Boxes
- Widgets
- Social
- Copyright
- Custom Section

You can drag and drop these sections to define their order in the footer layout.

Tip: Make sure your newsletter form plugin is active and the shortcode is correct, otherwise the form will not be displayed.
