How to Configure the Footer Contact Section

Footer · https://gloriathemes.com/docs/digimart/footer/how-to-configure-the-footer-contact-section/

You can manage the Footer Contact settings from:

Appearance → Customize → Footer → Contact

General Settings

- **Column** – Define how many columns will be used in the contact section.

Contact Details

Inside the **Contact Details** section, you can add multiple items using a repeater field.

Click **Add New** to create a contact item. Each item includes:

- **Title** – Heading of the contact item
- **Text** – Description or contact information
- **Link** – Optional URL (e.g., phone, email, map link)
- **Link Target** – Open in new tab or same frame
- **Icon** – Upload an icon/image

You can add as many contact items as needed.

Footer Section Order

To control where the contact section appears in the footer, go to:

Appearance → Customize → Footer → Footer General

Inside the **Footer Sections** area, you can reorder different footer blocks such as:

- Newsletter
- Contact

- Icon Boxes
- Widgets
- Social
- Copyright
- Custom Section

You can drag and drop these sections to define their order in the footer layout.

Tip: Use the contact section to highlight important information such as phone numbers, email addresses, store locations, or working hours.
