How to Add a Project List to a Page?

Projects · https://gloriathemes.com/docs/luxe/projects/how-to-add-a-project-list-to-a-page/

Step 1 - Navigate to Pages > All Pages from WordPress dashboard.

Step 2 - Click on the page you want to edit.

You can create it on a new page instead.

Step 3 - Click the plus button (or add new element button) on the WPBakery Page Builder navigation.

If you don't see this, switch to the page builder editor.

Step 4 - Open the 'Luxe Theme' category on the panel. A list of all elements that come with the theme will appear here.

Step 5 - Choose the 'Project Listing' element. The element will be added to the page.

Step 6 - You can edit the element and have the design and content you want.

Step 7 - Save the page and everything is ready!
