How to Add Filters to the Shop Sidebar

WooCommerce · https://gloriathemes.com/docs/benson/woocommerce/how-to-add-filters-to-the-shop-sidebar/

You can add filtering options to your shop page using widgets.

Go to:

Appearance → Widgets

There are two available sidebar areas:

- **Shop Sidebar** – For standard left/right sidebar filters
- **Filter Drawer Sidebar** – For off-canvas (drawer) filter layout

Shop Sidebar

- Active Product Filters: Active Filters
- Gromark: Product Categories
- Gromark: Price Filter
- Gromark: Product Attributes
- Gromark: Product Status

Filter Drawer Sidebar

- Gromark: Active Filters
- Gromark: Product Categories
- Gromark: Price Filter
- Gromark: Product Attributes

Available Filter Widgets

You can use the following widgets to build your filter system:

- **Active Filters** – Displays currently applied filters with remove option

  Settings:

  - Title

- **Price Filter** – Advanced price range slider

  Settings:

  - Title
  - Default Values – Use WooCommerce Range or Custom Values
  - Custom Min Price
  - Custom Max Price

- **Product Attributes** – Filter by attributes (e.g. size, color)

  Settings:

  - Title
  - Attribute – Select attribute to display
  - Show Color Swatches
  - Show Product Count
  - Allow Multiple Selection
  - Layout – Block or Inline

- **Product Categories** – Filter by product categories

  Settings:

  - Title
  - Include Categories (IDs)
  - Exclude Categories (IDs)
  - Show Empty Categories
  - Show Child Categories
  - Show Product Count

- Allow Multiple Selection
- Display Mode – Flat List or Hierarchical
- Order By – Name, Slug, Count, ID
- Order – ASC, DESC

- **Product Status** – Filter by stock and sale status

  Settings:
  - Title
  - In Stock
  - On Sale
  - Show Product Count

Filter Drawer (Off-Canvas Filters)

If you prefer a drawer-style filter panel, use the **Filter Drawer Sidebar**.

Then configure the drawer settings from:

Appearance → Customize → WooCommerce → Filter Drawer

- **Title**
- **Copyright Text**

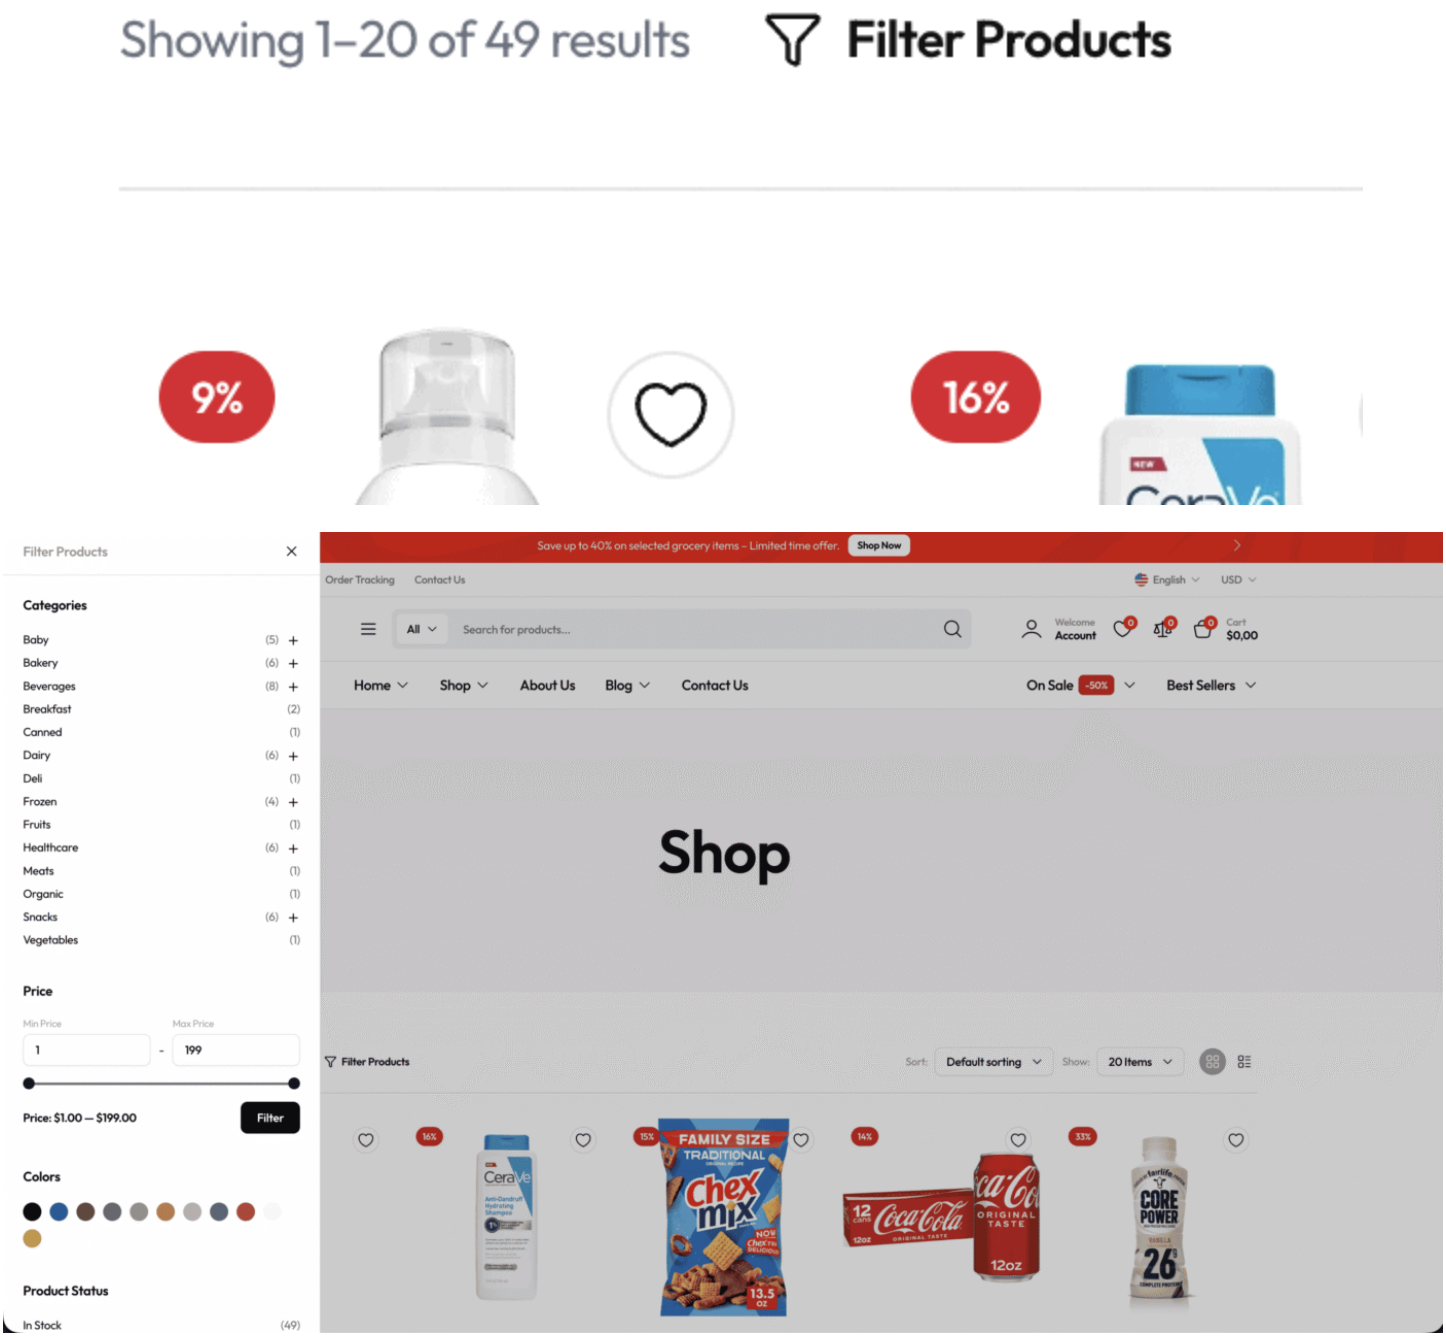

To enable the filter drawer, go to:

Appearance → Customize → WooCommerce → Shop Page

- **Filter Drawer** – Enable or disable
- **Filter Drawer Mobile Only** – Show only on mobile if enabled
- **Filter Drawer Text** – Button label text

Once enabled, a filter button will appear in the shop toolbar (above the product list). Clicking this button will open the filter drawer.

Tip: Use the Filter Drawer for a cleaner layout, especially on mobile devices, while keeping the Shop Sidebar for desktop users.
