How to Configure the Search Drawer

Header · https://gloriathemes.com/docs/benson/header/how-to-configure-the-search-drawer/

The Search Drawer adds a search icon to the header. When clicked, it opens an off-canvas search panel for users to quickly find products or content.

You can configure its settings from:

Appearance → Customize → Header → Search Drawer

General Settings

- **Title** – The heading displayed at the top of the search drawer.
- **Search Form** – Enable or disable the search form.
- **Placeholder Text** – The text displayed inside the search input field.
- **Copyright Text** – Footer text shown at the bottom of the drawer.

Recommended Products

You can highlight selected products inside the search drawer.

- **Recommended Products** – Toggle recommended products visibility.
- **Recommended Products Count** – Number of products to display.
- **Recommended Products Title** – Section title for recommended products.

To choose which products will be shown, go to:

Appearance → Customize → WooCommerce → Recommended Products

Most Popular Keywords

You can also display popular search keywords to help users quickly navigate.

- **Most Popular Keywords** – Toggle keyword suggestions.
- **Most Popular Keywords Title** – Section title.

- **Most Popular Keyword List** – Add keywords using repeater items.

Each keyword you add will be displayed as a clickable suggestion inside the search drawer.

Enable in Header

After configuring these settings, you need to enable the Search feature from:

Appearance → Customize → Header → Header General

- **Search Toggle** – Enable this option to display the search icon in the header.

Tip: Use Recommended Products and Popular Keywords together to improve product discovery and boost conversions.
